## Profile

Master's student in Computer Science (M2), specializing in Networks, Systems, and Information Security. Passionate about full-stack and mobile development, with hands-on experience building high-performance and scalable web and mobile applications. Motivated, curious, and committed, with a strong interest in contributing my development and security skills to innovative technology projects.

## Education

Octobre 2024 – Present	<b>Master's in Networks, Systems, and Information Security</b> Department of Computer Science, Faculty of Exact Sciences, Djillali Liabes University, Sidi Bel Abbès, Algeria.
Septembre 2021 – Juin 2024	<b>Bachelor's in Information Systems and Software Engineering (ISIL)</b> Department of Computer Science, Faculty of Exact Sciences, Djillali Liabes University, Sidi Bel Abbès, Algeria.
08/2021	<b>High School Diploma in Math-Technical (Mechanical Engineering)</b> Mohamed Boudiaf High School, Sidi Lahcène, Sidi Bel Abbès, Algeria. High Honors (17.22/20)

## Skills

<b>Web Development</b> HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Next.js, Tailwind CSS	<b>Mobile Development</b> Flutter, Dart	<b>Back-End</b> Node.js, Express.js, API RESTful
<b>Databases</b> MongoDB, MySQL, Firebase	<b>Server Deployment and Administration</b> VPS Deployment, Node.js Management with PM2, Linux Command Line, and Server Maintenance	<b>Tools and Technologies</b> Git, GitHub, Postman, VS Code, Cloudinary
<b>Methodologies</b> OOP, MVC, Performance Optimization		

## Professional Experiences

07/2025 – Present	<b>Flutter Developer   Wassla Platform</b> <ul style="list-style-type: none"><li>Actively working on the development of a <b>multi-application delivery ecosystem</b> including <b>Wassla (Client)</b>, <b>Wassla Courier</b>, and <b>Wassla Restaurant</b>, built with <b>Flutter &amp; Dart</b>.</li><li>Designed and implemented scalable mobile applications following <b>Clean Architecture</b> principles with <b>MVVM</b>, <b>Cubit</b>, and clear separation of presentation, domain, and data layers.</li><li>Integrated <b>RESTful APIs</b> to enable real-time order management, delivery tracking, and user interactions across all applications.</li><li>Implemented <b>real-time geolocation and tracking</b>, allowing live courier positioning, delivery status updates, and optimized dispatching.</li></ul>
-------------------	---

- Developed core features such as:
- Real-time order lifecycle management (creation, assignment, tracking, completion)
- Courier task management and delivery status updates
- Restaurant order management with live notifications and delivery coordination
- In-app communication between clients, couriers, and restaurants
- Built responsive and adaptive UI/UX with Flutter, ensuring smooth performance across different device sizes and roles.
- Implemented advanced functionalities including:
- Efficient data loading with pagination for large datasets
- Document handling (upload, download, and management)
- Real-time notifications and status updates
- Managed **production deployments**:
- Deployed and updated applications on **Google Play Store** and **Apple App Store**
- Experience with app versioning, release management, and store compliance
- Involved in **backend and infrastructure collaboration**, including:
- Working with **VPS environments**
- Environment configuration and production readiness
- Collaborated using **Git/GitHub workflows**, ensuring code quality, maintainability, and team coordination.

## Projects

---

### 2025 – Fatiel | Hotel Booking and Management Mobile Application

Full development of a hotel booking and management mobile application (freelance project): design, implementation of multiple user roles, and API integration.

### 2024 – Powerhouse | Gym Management Platform

Developed a web platform for managing sports schedules and trainer–client communication, final year project (Bachelor’s, L3).
